Objectives

Objective / I Can:

- Describe different kinds of forensic investigators and the various roles they play.
- Describe the fields of study and kinds of expertise forensic investigators can develop.
- Explain key terms used in forensic science.
- Explain what happens to a dead body's blood, muscles, and temperature and how that information helps to establish time of death.
- Explain the roles of a forensic scientist and a forensic investigator.

Activities

Student Activities:

Go to TEAMS [Forensic Science](#). Locate and complete the following assignments:

1. View the video, [The Real Science of Forensic Science](#), and complete the worksheet assignment.
2. View the video, [How to Become a Forensic Scientist](#), and complete the worksheet assignment
