Compare and Contrast Classroom Learning vs. Online Learning Essay Assignment

Students across the United States have been thrown into a new way of learning, learning online. Being forced to stay home and unable to meet face-to-face with their teachers caused by the world pandemic of the COVID-19 virus, many students without prior experience are struggling while students with prior experience with online learning are having an easier transition to this way of teaching.

Compare and contrast how face-to-face classroom learning is different from online learning and what the pros and cons are of face-to-face and online learning.

- You should have read the article "Compare & Contrast Essays" on the eapfoundation.com website (link provided). The article includes information on:

Journaling Daily/Weekly Assignment:

1. Continue your daily journal writing that fits your mood, feelings, activities going on with you that day; whatever best fits each day.
2. **Write, do not type**, your journal entry either in a spiral notebook, notebook paper, or a journal notebook. This will be a daily required writing activity.
3. If you want to share your journal entry with me, upload a picture of what you wrote to your TEAMS folder, REMIND or email. If you prefer not to share your journal entry, email me or send me a message through REMIND what your daily topic was that you wrote about each day.
4. There is no minimum or maximum of how much or what you write about in your journal daily. What you journal each day will guide the length of your writings.
5. You will be given 25 points each journal entry written during the week (Monday-Friday) for a total of 125 points for the week.
