

SUBJECT - Science

Choose 2 Tasks from below for this week. After you complete the tasks email (teacher's name) which tasks you did. In class we read the worksheets aloud and have discussion so there is a good chance you will need to read the worksheets with your student or take turns reading if possible. We also go over the worksheet together. All worksheets will have a key. It is quite alright if you take more than one session if needed, but your student is used to completing one worksheet a day. We will continue this choice menu next week as only two tasks are required and it may take more than one day to complete a task. I'll resend the choice menu next week in case work gets lost. There should be ten attachments, one for each exercise.

The tasks below address the following goals.

Goals:

I will be able to learn and answer questions about wildlife.

I will be able to identify planets from other space objects.

I will be able to tell you the three stages of matter.

KEY

- ☐ 1 independently
- ☐ 2 with prompting
- ☐ 3 with support

Hibernation An article and worksheet on animals that hibernate.	Migration An article and worksheet on animals that migrate.	Animal Article – The Pangolin Funny animal, please read and answer questions. Only do the two worksheets and not the report. We will work on the report at a later date.	Animal Article – Pink Fairy Armadillo Please read and answer questions. Only do the first two worksheets and not the written report. We will work on the reports next year.	Your Lungs Please read the article with/for your student and answer the worksheet. The answer key is provided. It is okay if this takes more than one day to complete. This is an exercise
---	---	--	---	--

				that would be done with the class and answers would be provided with the help of other students and the teacher
<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3
<p>Changing Water</p> <p>Please read the article with/for your student and answer the worksheet. The answer key is provided. It is okay if this takes more than one day to complete. This is an exercise that would be done with the class and answers would be provided with the help of other students and the teacher</p>	<p>Electrical Charges</p> <p>Look at the pictures and decide if there are more positive or negative atoms to determine the charge. If the positive and negative are equal then it has no charge.</p>	<p>Harvest Moon</p> <p>A poem and worksheet on the harvest moon</p>	<p>Name the Phases of the Moon</p> <p>A tougher worksheet than last time. You are provided a word bank though, good luck!</p>	<p>Your Digestive System</p> <p>Please read the article with/for your student and answer the worksheet. The answer key is provided. It is okay if this takes more than one day to complete. This is an exercise that would be done with the class and answers would be provided with the help of other students and the teacher</p>
