My goal is for you to be active during our time apart. Physical activity will help boost your immune system and releases those feel good endorphins, too! It is important for our mental health as well, and I am here to help motivate you.

Objectives

Objective / I Can: Be active and improve my mental and physical health by incorporating exercise and the opportunity for movement each day.

Activities**Student Activities:**

Go to [Teams Folder](#). Look for the assignment: Physical Activity Log

1. Write down a daily goal for yourself. (Walking the dog, playing Just Dance with a sibling, swimming, doing a yoga/fitness video, going for a jog, mowing the lawn)
2. Document what activities you actually performed that day, along with the length of time. ANY physical activity counts! Remember, you want to strive for 60 minutes of moderate exercise a day, and more is better!
3. At the end of the week, reflect on what physical activity you enjoyed the most and why.
