www.youtube.com (research topic as necessary)

Objectives

Objective / I Can:

- Demonstrate knowledge of handling strategies for hazardous substances.

Activities

Student Activities: (Resources, videos for students to use.)

Use IceV (Clever) online, youtube, and NCCER page for resources. Anything off internet needs to be referenced and/or cited.

Go to [Teams Folder](#). Upload the assignment: **SAFETY FIRST**

Directions:

For this Activity, research a hazardous substance used in the manufacturing industry and discuss the appropriate strategies for handling, storing and disposing the material based on OSHA guidelines.

1. Using the Internet, library or any other available resources, research and select a hazardous substance used in the manufacturing industry.
2. Notify your instructor before beginning any additional research in order make sure no two students select the same substance.
3. Using the Internet, locate a Material Safety Data Sheet detailing the substance you chose.
4. Gather at least 10 facts about the substance. Be sure to include the following:
 - Hazards
 - Storage
 - Disposal
 - First-aid measures
 - Personal Protection Equipment needed
5. Develop a short (one to three minute) presentation detailing your findings as well as a 10 question quiz on the safety aspects of the substance selected.
